

When Women Rise, Communities Thrive

This Women’s Day, OneStage celebrates women driving change across communities from advancing health and dignity to leading grassroots action. Reaching over 1.2 lakh women in FY 2025-26, OneStage continues to enable confidence, resilience, and opportunity. Because when women are empowered, communities grow stronger, more equal, and future ready.

Handing Over Water Security to Communities, One Waterbody at a Time

Through the PANI initiative, OneStage marked the handover of multiple rejuvenated ponds, significantly enhancing water storage, groundwater recharge, and access for thousands. These interventions reflect OneStage’s commitment to community ownership, where restored water bodies are not just assets, but foundations for long term resilience and sustainable rural futures.

Reviving Water, Securing Community Futures

Through the flagship PANI initiative, OneStage is advancing the rejuvenation of key water bodies in Sohna, strengthening groundwater recharge and water access for thousands. Supported by Rio Tinto, these efforts reflect OneStage’s focus on community led water management, where local ownership and collective action are driving sustainable water security and long term resilience.

Weaving Tradition into Thriving Livelihoods

Through the Weaving Dreams initiative, OneStage is strengthening artisan livelihoods in Sarangarh by enabling design innovation rooted in tradition. Supported by Pernod Ricard India, the program equips weavers with new skills and market relevant approaches. OneStage continues to ensure that heritage crafts evolve into sustainable, income generating opportunities for future generations.

Planting Today, Greening Tomorrow

OneStage launched the Row Plantation Project with a hands on volunteering drive, bringing together young peer educators and partners to drive collective action. Supported by AstraZeneca, the initiative goes beyond planting trees, building awareness, ownership, and long term environmental responsibility while advancing OneStage's commitment to healthier, greener communities.

Driving Measurable Impact Through Water Restoration

OneStage's Khachali Lake project in Jharkhand has delivered strong outcomes in water access, agriculture, and livelihoods. Supported by ATECF and NITI Aayog, the initiative improved irrigation, increased productivity, and strengthened community ownership through Water User Committees. With efficient execution and measurable returns, OneStage continues to demonstrate scalable, sustainable impact in rural water management.

Closing with Impact, Continuing Care

OneStage successfully concluded the Aarogya Wheels initiative in Nuh, delivering essential healthcare to nearly 2,000 residents across five villages. Supported by Evalueserve, the program strengthened preventive care and local capacity through Swasth Sakhis. OneStage ensured that access to care continues beyond the project, reinforcing long term community health systems.

Shaping the Future of Giving: World Giving Survey 2026

OneStage is supporting the World Giving Survey to understand evolving donor behaviour and strengthen the future of philanthropy. In association with Charities Aid Foundation UK, the initiative aims to generate insights that help design more effective, connected programs. By amplifying diverse voices, OneStage is contributing to a more informed, responsive, and impactful giving ecosystem. Click to participate:
